

# SIEBE MICHIELS

Software Developer

## PROFILE

As a third-year student in **application development** at Thomas More, I'm passionate about **programming** and **technology**. This passion drives my ambition to become a versatile **full-stack developer** and explore **freelancing** opportunities. Eager to contribute to diverse projects, I am driven by a genuine enthusiasm for coding and the dynamic challenges of the tech industry.

## LANGUAGES

Dutch - Native Language

English - Fluent

French - Functional

## Education

### Bachelor Application Development

Sep 2021 - Present

[Thomas More Geel](#)

### STEM Secondary Education Diploma

Sep 2015 - Jun 2021

[Sint-Gummaruscollege Lier](#)

## Internship

During my internship at Lykios (March 25th - May 24th 2024), I worked on the Alloc8 project, a web application designed to facilitate desk reservations in office buildings. My primary focus throughout this internship was on the front-end development using React, this is also where I thought myself to use Redux. Additionally, I wrote backend logic where necessary and utilized Redux for state management.

## Skills

### HTML/CSS ●●●●●●●○

- HTML
- CSS
- Tailwind CSS

### React ●●●●●●●●

- JavaScript
- Redux
- Recoil

### Angular ●●●●●○○○

- TypeScript
